U.S. Patent and Trademark Office PTOL-37 (Rev. 1-04)

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Although the prior art, as exemplified by Briggs et al, U. S. Patent 5,639,828, teaches the conversion of epoxy functional entities to carbamate compounds using the steps of applicants' method, and using carbamate compounds in curable coating compositions, nowhere is there taught or suggested the reaction of branched alkyl epoxy compounds to produce the carbamates using applicants' method and incorporating the product into curable coating compositions. Applicants' claims are, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
